SUMMARY

An Information Technology graduate from Krida Wacana Christian University and a certified Bangkit Academy graduate in the Mobile Development learning path. Gained hands-on experience in building user-friendly mobile and web applications through both academic and project-based learning. Successfully developed real-world apps with a focus on efficiency, clean UI, and impactful problem-solving. Passionate about turning ideas into digital solutions and eager to contribute to innovative tech teams.

EXPERIENCE

INDONESIA TECHNOLOGY AND INNOVATION – Jakarta, Indonesia
Junior Fullstack Developer (December 2024 – March 2025)

- Developed responsive web applications using HTML, CSS, JavaScript, Bootstrap, and jQuery to enhance user experience.
- Built and managed server-side logic using PHP and MySQL, improving system reliability and database efficiency.
- Designed and optimized database structures via phpMyAdmin, resulting in faster query performance.
- Integrated front-end and back-end components to ensure seamless functionality across the platform.
- Enhanced application features by implementing third-party APIs and services.
- Debugged and optimized both client-side and server-side code, reducing load times and improving security.
- Collaborated in a team to deliver scalable and high-performance web solutions on time.

PT MAYBANK INDONESIA FINANCE – Jakarta, Indonesia
Information and Communication Technology Audit – Intern (September 2023 – February 2024)

- Performed monthly IT inspections and operational checks, compiling findings into comprehensive reports for internal review.
- Developed a web-based file download system with activity logging to ensure secure and traceable file transfers.

EDUCATION

BANGKIT ACADEMY (February 2023 - July 2023)
Mobile Development Learning Path – Supported by Google, GoTo, and Traveloka

KRIDA WACANA CHRISTIAN UNIVERSITY (2020 - 2024)
Bachelor of Informatics - GPA 3.85

PROJECTS

ANIMALSNAP (April 2023 – July 2023)
Developed an Android app that identifies animals from photos—classifying them as pet-friendly, exotic, or endangered. The app is designed for users of all ages.
GitHub: github.com/ItsMeMan221/animal-snap

ROBOCASH (October 2022 – January 2023)
Engineered a Java-based mobile app to streamline personal finance tracking with real-time data visualization and graphical features to help users visualize their financial history.
GitHub: github.com/TukangBakmi/RoboCash

YOURCRAVE (October 2022 – January 2023)
Designed and developed a 3D open-world web game using Three.js to enhance user engagement through interactive exploration.
GitHub: github.com/TukangBakmi/YourCrave

CERTIFICATIONS

DEV CERTIFIED FOR ANDROID (valid until Feb 2028)
Verify Certificate: dev.id/certificate/verify/JE0PJ4O075

INTERMEDIATE ANDROID DEVELOPMENT – Dicoding (valid until May 2026)
Verify Certificate: www.dicoding.com/certificates/JMZV91E4QPN9

SOLID PRINCIPLES – Dicoding (valid until May 2026)
Verify Certificate: www.dicoding.com/certificates/JMZV9GYNNPN9

SKILLS

- **Frontend Development:** React, JavaScript, HTML5, CSS3, Bootstrap, Material Design
- **Backend Development:** Node.js, Hapi.js, PHP, RESTful APIs, Express.js
- **Mobile Development:** Android, Java, Kotlin, Firebase, Material Design
- **Database and Storage:** MySQL, Firebase Firestore, Local Storage, MongoDB
- **Tools and Technologies:** Git, GitHub, VS Code, Android Studio, Postman, Composer
- **Other Languages:** Python, Java, Javascript, PHP
